LAND REGISTRY AND CADASTRE INFORMATION SYSTEM (TAKBİS)

- TAKBİS is a strategic e-government project that has all **real estate ownership** information throughout the country,
- all kinds of inquiries can be made on TAKBİS,
- RE transactions are conducted and monitored through IT systems, and services provided to costumers are presented in a reliable, up-to-date and fast manner.

TAKBİS DATA SHARING / WEB Services

TAKBİS data is **shared with more than thousand** public institutions and organizations, municipalities, professional chambers, associations and banks in international standards and it forms the basis for the added value data generation of related institutions.

This avoids the production costs arising from duplication of existing information.

E-GOVERNMENT PORTAL SERVICES

Since 2010 from E-Government Portal (www.turkiye.gov.tr);

All citizens have access to their own Land Registry and Cadastre information.

They are able to inquire about the fees related to their transactions and they can also take samples of fee receipts they need.

SPATIAL PROPERTY SYSTEM (MEGSİS)

It is a **web based and open source application** which is formed by the cadastral information being gathered on a central system and harmonized with the land registry information.

Integration of title data with graphic data was initiated in **2011** and until that time **57,240,438** cadastral parcels were integrated.

The screenshot displays the MEGSİS web application interface. The browser address bar shows the URL: cbs.tkgm.gov.tr/silverlight/anasayfa.aspx. The page title is "Mekânsal Gayrimenkul Sistemi". The interface includes a navigation menu with options like "Tapu", "Veri Aktarm", "İstatistikler", and "Yardım". A search window titled "Kişi Sorgulama" is open, showing search criteria and a table of results. The table lists the following data:

İmlik No	Adı	Soyadı	Baba Adı	Ana Adı	Doğum Yeri	Doğum Tarihi
3344638	SEDAT	BAKICI	LÜTFİ
