

HISTORY OF THE BUILDING [1]

The Construction of DeFTER-i Hakani - (1908) *

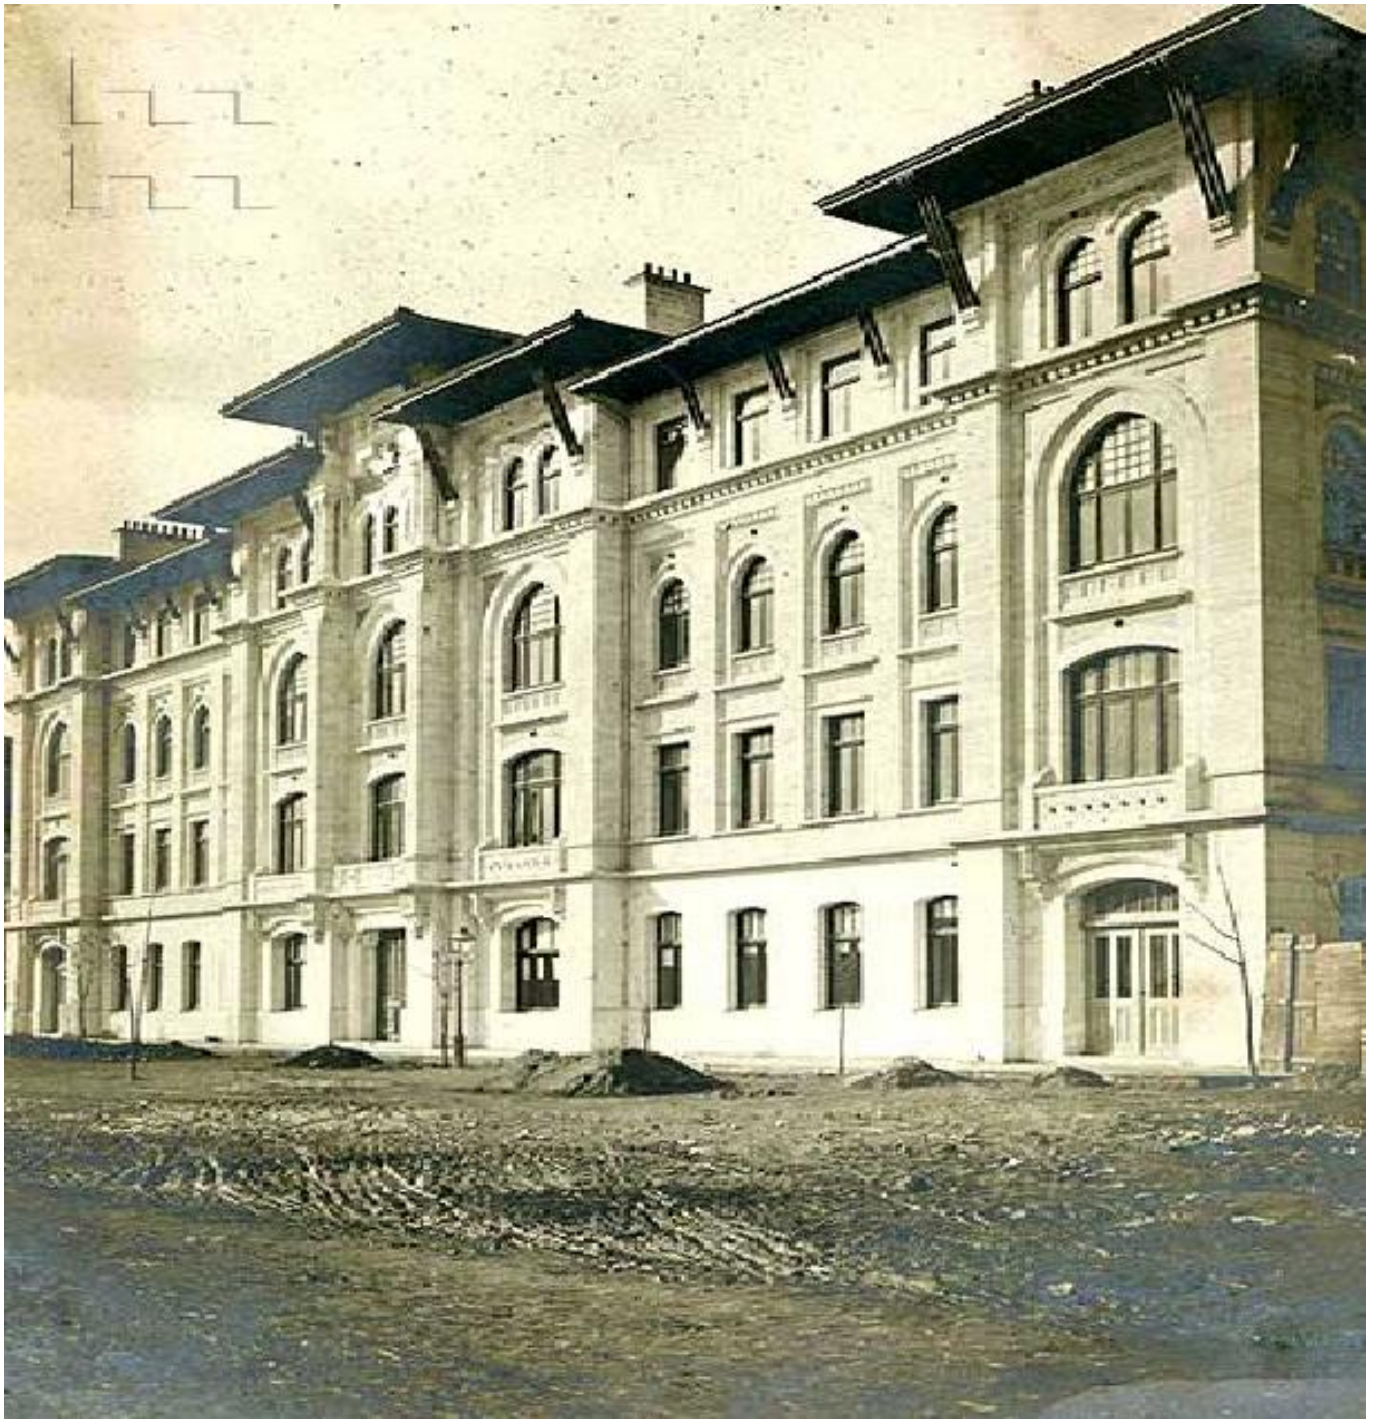

History Of The Building

The building of Regional Directorate of Land Registry and Cadastre consists of two parts. The first part which was constructed in 1881 is still using for archiving and dinning hall. In 1881 when it was constructed it has begun to serve for official land registry operations and called "DeFTER-i Hakani Nezareti". (The Ministry of State Responsible for Land Registry and Cadastre)

The second part at the Sultanahmet square is used for Regional Directorate of Land Registry and Cadastre building was constructed later.

In 1897 the place of the second part was bought by giving 34.000 Kuruş (1 Turkish Lira=100 Kuruş) to a restaurant and two driver shops. Then today's building has been constructed in 1910 by destroying those two shops and architected by Mehmet Vedat Efendi. In 1881 this building has been joined with the first part and registered to the name of "DeFTER-i Hakani Nezareti".

In 1920, with a new decision the possession of the building transferred to Treasury, however it has been registered to the name of Land Registry and Cadastre. However it has transferred to Treasury, it is still giving activity as Regional Directorate of Land Registry and Cadastre.
